#### How Do My Scores Compare?

A percentile shows how you scored, compared to other students. It's a number between 1 and 99 and represents the percentage of students whose scores are below yours. For example, if your Biology Test score is 500 and the national percentile for 500 is 47, you did better than 47% of all high school students who took this test.

Keep in mind that different groups of students take different SAT Subject Tests™, so you can't compare percentiles of different tests.

#### What Are Score Ranges?

Test scores are single snapshots in time—if you took the test once a week for a month, your scores would vary.

That's why score ranges are better representations of your true ability. They show how much your score can change with repeated testing, even if your skill level remains the same.

Usually your scores fall in a range of roughly 30–40 points above or below your true ability. There must be a difference of at least 60 points between your score and another student's to say that one of you performed better than the other. Colleges know this, and they get score ranges along with scores so they can consider scores in context.

Your online score report at [sat.org/scorereport](https://sat.org/scorereport) shows your score range for each test you took.

#### Should I Take the Test Again?

Each Subject Test measures your knowledge of a particular subject. If you continue to study the subject and take the test again, your new score should reflect your increased knowledge.

You can also register for other Subject Tests, or the SAT, at [collegeboard.org/mysat](https://collegeboard.org/mysat).

### How Do I Send My Scores to Colleges?

This student score report is for your use only.

Most colleges require you to have the College Board send them official score reports. They don't accept copies of student score reports, online score reports, or score report labels on transcripts.

### Can I Choose Which Scores to Send?

With Score Choice™, you decide which scores you send to colleges. Choose by test date for the SAT and individual test for SAT Subject Tests. Just make sure you follow each college's stated score-use policy.
